EAST MONTPELIER GULLY JUMPERS
SNOWMOBILE CLUB INC.
PO Box 75
East Montpelier VT 05651

Minutes of Meeting
10/12/2026

Meeting called to order at 6:35 with nine (9) members present at the Four Corners Schoolhouse.

Minutes of April 2026 meeting read and accepted.

Treasures report: Checking account begin balance = **$516.83,** ending end = **$1004.61**. Money market begin balance = **$16,606.00**, end balance = **$7,520.79**. Motion made with second to approve, all voted in favor, report accepted. These figures reflect receipt of interest, VAST payments, and our own expenses.

County News – There was talk about raising the cost of TMAs by $10, but no clear spending plan for the money generated from that. There was also talk of a treasury report being sent along with the secretary report from each meeting. Sandy explained that it is tough for him to see at night and that he needs a replacement to attend the county meetings. Hazen and Jackson have volunteered to do it.

Groomer – Kassborgh did a full service on the machine, which included removing the tracks, checking and repacking all wheel bearings, checking the torsion bars, oil, filters, hydraulic filter, final drive fluid change, grease fittings, etc. Dave has tightened the tracks, we should be all set. The new GPS unit has not yet arrived at Derek's house. Derek is still working on the insurance claim for the drag, the insurance company is not responding. Derek has a friend at Bellevance trucking that is helping with what to say to the insurance company. We still have a wheel and tire from Barre, they are not in a hurry to get it back.

Trails – The signboard has been moved to the intersection near Coburn bridge. The guys will start working to update sponsors and try to sell new spots. Each board generates about $3000 per year. We did not get the intersection signs done over the summer, but will work on them this fall. We should meet to figure out the signs for each post and get them ordered. Discussed the Plainfield Hardware bridge issue, hoping to get logging mats in there for this season. The bridge on Derek's land needs the abutments on the field side put back in place as they have washed down into the brook. Maybe we meet there to look at it and come up with a plan. We will also tackle the washout near Justis's and the stream behind Guilmette's. We should also try to get dirt on the guardrail bridge at Fitches.

With no additional business to discuss, motion and second to adjourn meeting. All voted in favor and meeting was adjourned at 7:45.
